

CHANGES TO THE WES SERVICE OFFER FOR 2022/23

To help you when making your purchase decisions for 2022/23, please note the following changes to the WES Service Offer:

WES Education Finance Service – We have updated our Financial Management Support Services so that they now provide additional value through the inclusion of a Financial Health Check carried out once every three years for maintained schools.

WES Warwickshire Heritage Learning Service – We have added a new subscription offer for 2022 that includes loan boxes delivered directly to your school. Loan boxes contain objects from Warwickshire museum which are normally reserved for display in the museum, this new service provides children the opportunity to become curators and care for Warwickshire's history in their own school.

WES HR & Payroll Service – The *HR Advice Direct Subscription* no longer includes two hours of free legal support.

WES ICT Development Service – We have taken the decision to remove the *Strategic Advice & Support Service* from our offer for 2022/23. We will continue to support your school's ICT Strategy through our wide range of alternative service offers.

Building Services – To make it easier for you to understand and make purchase decisions for our *Building and Property* related services, we have renamed and reorganised our packages. More details can be found in the WES Brochure and on your school's order form. In summary we now offer the following:

- WES Health & Safety Service
- WES Property Services:
 - Compliance
 - Facilities Management
 - Maintenance
