1. Introduction

- 1.1. This annual sufficiency update is published to provide the current context for the delivery of the Warwickshire County Council (WCC) Education Sufficiency Strategy 2018 - 2023.
- 1.2. This update outlines pupil number forecasts from September 2019 covering a 5 year period for primary phase and a 7 year period for secondary phase, and provides an overview of the forthcoming pressures expected during that period.
- 1.3. All pupil forecasts include all currently approved housing developments as at time of publication. WCC Education Services work collaboratively with the five District and Borough planning authorities and the progress of proposed and approved housing development across the county is continually monitored. The underlying data relating to housing trajectories is subject to change.
- 1.4. Details of how any expected pressures will be met, including current planned capital schemes, are outlined in each section. These may change in response to relevant changes in housing developments in the area and the impact on expected need for places. All individual projects are subject to the availability of funding and the appropriate consultations, feasibilities, and approvals.
- 1.5. Full analysis of Early Years sufficiency across the county is outlined in the Early Years and Childcare Sufficiency Assessment 2019 [link](#).
- 1.6. The most up to date pupil yield figures used when assessing likely additional pupils generated by new housing development are included within this update as Appendix 3.
- 1.7. Details of WCC's approach to meeting need arising from housing development and requests for financial contributions from developers is available in WCC Developers' Guide to Education Contributions 2019 [link](#).
- 1.8. From publication in June 2019 this sufficiency update will cover the academic year 2019/2020 and will be followed by an update on an annual basis.

2.1.2. Commentary and Sufficiency Proposals

Current pupil forecasts for North Warwickshire show the majority of planning areas are predicted to have available capacity in excess of the 4% target.

- Polesworth primary planning area is currently forecast a possible overall in year pressure due to the popularity of the schools with children from outside of the area. This will be monitored closely although available capacity is expected in the neighbouring North Polesworth planning area.
- Water Orton Primary School is being relocated as a result of HS2. The school is currently being rebuilt as a 1.5FE (315 place) primary within the village of Water Orton, retaining the current capacity and will continue to accommodate nursery and SEND resourced provision on site.
- High Meadow Infant School will expand the age range from September 2019 to create a 1FE primary school, increasing capacity by an additional 120 places across the school.

2025/26	240	239	0%	1200	1212	-1%

2.2.2. **Commentary and Sufficiency Proposals**

Current forecasts for North Warwickshire show that in contrast to the primary, the majority of secondary planning areas are predicted to be over capacity. It is expected that there will be in year pressure in the Atherstone area due to slightly higher primary cohorts and the build out of approved housing development in the area.

- Queen Elizabeth Academy has admitted an additional 30 pupils for Year 7 entry in September 2019 to accommodate demand in the Atherstone planning area. Work is now underway with the Academy Trust to rationalise the existing accommodation and to review the accommodation needed on the school site moving forward. It is expected the school will need to expand by 2 forms of entry over the next 5 years to accommodate the growing need for secondary school places in the area.
- The Coleshill planning area is expected to be at or slightly over capacity for both Year 7 and across other year groups. The school has increased its PAN to 210 from September 2017, increasing capacity by an additional 150 places across the school over the following 5 years. This increase will enable the school to accommodate demand from both in and out of county children, and address the predicted shortfalls currently forecast in this area. An additional classroom block will be delivered for the 2019/20 academic year to allow the school to accommodate the additional pupil numbers as they roll out across all year groups.
- Kingsbury planning area is expected to be at or just under capacity with less than 4% available surplus. However there is limited development planned in this area and it is anticipated that there will not be a long term issue in the area.
- The Polesworth planning area is currently expected to be slightly over capacity owing to the popularity of the school with pupils from outside of Warwickshire for Year 7 entry. Given this fact, there may be pressure for in year applications if pupils move into the area.
- A review of the accommodation at The Polesworth School will be required following the construction of a replacement classroom block under the Priority School Building Programme project currently being undertaken by the Department for Education at the school. Once the current project is completed the site will be reviewed to ensure the school is able to meet the expected need from approved and future development in the area.

	2023/24	490	471	4%	3400	3472	-2%

3.1.2. **Commentary and Sufficiency Proposals**

- Bedworth South West and Bedworth North East primary planning areas are currently expected to have sufficient capacity to meet need in the area. This includes increased capacity at Newdigate Primary School from 1.5FE to 2FE from September 2018, creating an additional 105 places across the school over the next 7 years.
- The Wolvey and Bulkington primary planning area is forecast to have some pressure on Reception places from 2019 as a result of a slight rise in birth rate. This will initially be met by schools in neighbouring Bedworth planning areas.
- There is likely to be some overall pressure from the 2019 academic year onwards in the Nuneaton North East planning area. This is primarily as a result of housing development, and where necessary in year applications would be accommodated in neighbouring Nuneaton schools.
- Lower Farm Academy is due to open on the Lower Farm development in September 2019 with 30 places in Reception to meet the forecast need in the North of Nuneaton; this additional Reception capacity is included in the reference table. The school is being delivered by the Education and Skills Funding Agency (ESFA) and will be able to grow to 60 places per year group to help meet the longer term need for places in line with housing development in this area of Nuneaton.
- There could be a small amount of pressure on Reception places for September 2022 in the Nuneaton North West planning area. This will be met by schools in the neighbouring planning areas.
- Michael Drayton Junior School has increased capacity to 5fe from September 2018, adding an additional 120 places across the school over the next 4 years. This is as a result of the current bulge classes and expansion at Nathaniel Newton Infant School transferring through to Year 3.

	2025/26	956	1046	-9%	4780	5365	-12%

3.2.2. Commentary and Sufficiency Proposals

- The Hartshill planning area is expected to see a decrease in the available capacity at Year 7 in the next few years with a shortfall for Year 7 intake expected by September 2022. This will be monitored and bulge classes may be required to accommodate the short fall.
- The Bedworth planning area is currently predicted to have available capacity in both Year 7 entry and overall in the next 5 years. However, there is expected to be a slight pressure for Year 7 entry in September 2021, increasing to a shortfall of places in September 2022. This situation will need careful monitoring particularly if any of the current strategic housing allocations are approved as additional capacity may be required at Ash Green School.
- Working with the Academy Trust, a review of the accommodation at Nicholas Chamberlaine Academy will be required following the construction of a replacement classroom block under the Priority School Building Programme project currently being undertaken by the Department for Education at the school. Once the current project is completed the site will be reviewed to ensure the school is able to meet the expected need from approved and future development in the Bedworth area.

- Ash Green School has admitted over PAN for the last 3 years to accommodate demand from within the school's priority area. Further work will be undertaken with the Academy Trust to review of the accommodation on site to meet expected need from approved and future development in the Bedworth area.
- The Nuneaton planning area is currently forecast to have an overall shortfall of places available from 2019. The expected shortfall in neighbouring Hartshill may compound this issue with any available in year capacity at Nuneaton schools being utilised by children from the Hartshill planning area. In year applications will be monitored closely and will require close working with the existing secondary schools to ensure all children moving into the area can be accommodated.
- Across Nuneaton we will work with schools to ensure space in existing buildings is being utilised to accommodate any in year pressure or for Year 7 entry should there be a need to additional classes as the academic year progresses.
- Etone College has admitted an additional 30 pupils for Year 7 entry in September 2019 to accommodate demand in the Nuneaton planning area.
- A review of accommodation and site capacity at Etone College and Higham Lane School will be undertaken to inform expansion of the schools to accommodate demand from the initial phases of housing growth in the North of Nuneaton. Following this there is likely to be the need for an additional secondary school in the North of Nuneaton in line with proposed housing.

	2023/24	90	64	29%	630	495	21%

4.1.2. Commentary and Sufficiency Proposals

- The increased housing development and migration into Rugby town over recent years has seen the need for expansions and bulge classes at primary schools across the town. The result is forecast capacity above the 4% target across the majority of planning areas, particularly for Reception entry moving forwards. There may be pressure for in year applications towards the north of the town but sufficient capacity is expected at other schools across Rugby to accommodate those families moving into the area.
- Long Lawford Primary School's PAN increased to 90 from September 2018, providing an additional 210 places in the area across the next 7 years. This is to

ensure there is sufficient capacity to accommodate increasing pupil numbers within the school's priority area due to housing development within Long Lawford village and to provide some surplus capacity for pupils moving into the area midyear. The school also admitted additional pupils in September 2017 to accommodate demand in the area. A project to provide additional accommodation at the school is being completed in phases in the 2018/19 academic year to provide the classrooms required to support the increased PAN.

- St Gabriel's C of E Academy opened from September 2018 on the housing development at Houlton in the east of Rugby to accommodate demand for primary school places from the new housing. The new school has opened as a 1fe (210 places) primary school offering places in all year groups. Longer term the site provides the option to expand to 3fe (630 places) as the housing development at Houlton progresses.

	2025/26	220	299	-36%	1100	1519	-38%

4.2.2. Commentary and Sufficiency Proposals

- Current forecasts include all approved housing developments and show secondary schools in Rugby are expected to be near to capacity for Year 7 entry from September 2019. This includes the additional capacity provided by Rugby Free Secondary School which opened from September 2016 towards the south of the town providing an additional 6fe per year group.
- In order to meet the expected shortfall in Secondary places across Rugby the proposed secondary school on the Houlton development will be opened from September 2021. The new school will open as 6fe (900 places plus 6th form) initially

to meet the demand expected across Rugby as well as that from the Houlton development, with further expansion expected longer term beyond the current forecast period in line with growing need. This school will be delivered in partnership between the developers of Houlton and ESFA and will be operated by the Transforming Lives Educational Trust.

- Ashlawn School admitted an additional 30 pupils for Year 7 entry in September 2019 as a temporary bulge class to accommodate demand in the Rugby area. Discussions will continue with the Trust as it is likely the school will need to admit another bulge class in September 2020 to accommodate the demand for places prior to the new school opening at Houlton.
- Lawrence Sherriff School have been successful in securing funding from the DfE to expand Grammar provision. It is expected this funding will allow the school to expand by 1fe from September 2021, increasing capacity by an additional 150 places across the school over the following 5 years. Given the selective nature of Grammar schools it is likely not all of these places will be offered to children from the Rugby area in any given year, however the school have expressed a commitment to ensure that moving forward the proportion of local pupils admitted to the school remains the same.
- Following the opening of the new secondary school on Houlton there is still a slight pressure expected on secondary school places across Rugby. The preference to meet this shortfall is for the expansion of existing secondary schools in the area. However, if the capacity required to meet this need is not available on existing school sites, WCC will review options with the developer of Coton Park East in the north of Rugby for a new secondary school to be located on that development. This will only be implemented when the options for expansion at existing schools have been exhausted.

5.1.2. Commentary and Sufficiency Proposals

- The Kenilworth planning area is currently forecast to be over capacity by the end of the 2019 academic year and applications will be monitored closely.
- The Leamington area is facing significant pressure over the coming years due to housing development and it is expected that South Leamington primary planning area will be over capacity for Reception entry from September 2019 onwards with possible in year pressure by the end of the 2019 academic year.
- Heathcote Primary School opened from September 2017 as 1fe (210 places) and has proved popular with residents in the surrounding area. It is currently proposed to expand the school to 2fe (420 places) from September 2021 to ensure there are

sufficient places to meet the expected need in the planning area in line with housing development.

- In conjunction with the expansion of Heathcote primary, and the eventual opening of further new provision in the South Leamington planning area beyond the current forecast period, it is proposed to expand Whitnash Primary School to 2fe. This will increase capacity by an additional 105 places across the school over the next 7 years to accommodate need arising from housing development and ensure the school is supported and grows alongside the proposed new schools in the Warwick and South Leamington primary planning areas.
- Radford Semele primary planning area is currently forecast to have a pressure on places from the 2019 academic year onwards, this is primarily as a result of housing development and in year applications would be accommodated in neighbouring Leamington schools.
- It is also anticipated that some of the more rural villages surrounding Leamington and Southam with recently approved housing developments may see an increase in demand for pupil places at individual schools from in year applications.

5.2.2. Sufficiency Proposals

- Current forecasts show secondary schools in the Warwick and Leamington planning area are expected to be over capacity from September 2019. As larger primary cohorts continue to transfer through to secondary school and housing development within the area progresses this shortfall is expected to increase rapidly and will likely support a new secondary school as early as September 2023.
- A new 17 classroom Science and Maths building is currently being progressed on site at Campion School and will allow the school to increase capacity by just less than 2fe. The school have admitted an additional 25 pupils for September 2019 and work is currently ongoing with the school to ensure this expansion is phased from September 2019 to address expected shortfalls in the Warwick and Leamington secondary planning area.
- North Leamington School have admitted an additional 30 pupils for Year 7 entry in September 2019 as a temporary bulge class to accommodate demand in the Warwick and Leamington secondary planning area.
- Myton School have a limited amount of capacity available at the school to offer an additional 15 places per year group to help ensure there are sufficient places across the Warwick and Leamington secondary planning area to meet future demand.
- In order to meet the expected shortfall in places across the Warwick and Leamington secondary planning area it is expected the new secondary school proposed as part of development in the South Leamington/ Warwick area may be required from September 2023/2024, providing an additional 6fe (900 places plus 6th form). Work is currently being undertaken with Warwick District Council and the developers in South Leamington towards the delivery of this new secondary school and ensuring its integration with the existing and new housing in the area.
- The Kenilworth planning area is currently expected to be over capacity owing to increasing primary cohorts and the popularity of the school with pupils from outside the area. Given this fact there may be pressure for in year applications if pupils move into the area. In addition, proposed housing development will increase this pressure further and eventually require additional Secondary provision towards the end of the current forecast period.
- Kenilworth School is currently expected to relocate to a new site within the town from September 2021. As part of the relocation project additional capacity will be provided to accommodate the expected growth in secondary pupil numbers as a result of approved and proposed housing development in Kenilworth town. Work is currently being undertaken to identify the accommodation needed on the existing site to allow the school to offer additional places to meet need in the area prior to relocation.
- In addition to the relocation and expansion of Kenilworth School there are proposals for a new 6fe secondary school as part of the proposed development to the north of Kenilworth on the Coventry border, known as King's Hill. The impact of this

development is likely to be towards the end of the current forecast period. Initial Secondary age children generated as result of this development may need to be accommodated via temporary arrangements which would require collaboration with existing local secondary schools.

- The increase in PAN at Southam College from 2016 has ensured all children in the Southam planning area can be accommodated at the school. However, due to the popularity of the school and a number of housing developments currently building in the area, current forecasts suggest there will be a significant shortfall in Year 7 places from September 2024. As this shortfall is largely due to housing development it is likely that there will be increased in year pressure as families move into new homes in the area. This will be monitored closely and in turn may also place additional pressure on the neighbouring planning area of Warwick and Leamington.
- A review of accommodation and site capacity at Southam College will be undertaken to inform any future requirements for expansion of the school to accommodate demand from proposed additional housing in the Southam area.

6.1.2. Commentary and Sufficiency Proposals

- The majority of primary planning areas across South Warwickshire are expected to have sufficient capacity to accommodate the need in the area. However several areas may have very slight pressures for both Reception entry and overall capacity; these areas will be closely monitored as the academic year progresses.
- In Kineton primary planning area there is currently forecast to be a slight in year pressure on Reception and overall capacity from September 2019, increasing towards the end of the current forecast period. This is due to the reported build out of housing development at Gaydon Lighthorne Heath which will be monitored and options reviewed to provide additional accommodation at the existing Lighthorne Heath Primary School prior to the relocation and expansion of the school beyond the current forecast period as part of the development.
- Ettington primary planning area is expected to have short term pressure on Reception places for September 2021 and longer term pressure on in year places overall. This will be monitored closely as the academic year progresses.

- The Stratford Rural, Ilmington, and Compton and Brailes primary planning areas are forecast pressure for Reception entry and/or overall capacity. This situation will be monitored closely due to the rural nature of the planning areas and the distance between the individual schools involved.
- Quinton primary planning area is currently forecast to have a shortfall moving forward due to housing development at Long Marston Airfield and Meon Vale.
- Tudor Grange Primary Academy, Meon Vale will open in September 2019 to provide an initial 30 places in Reception in the Quinton primary planning area. ESFA are currently progressing construction of the new school. The school will initially open as 1fe for Reception only and once the permanent school building is complete discussions will be held with the Academy Trust to explore the opportunity of opening additional classes if required to meet demand in the area. It is also expected this new school will meet the need for primary places from the initial phases of the neighbouring development at Long Marston Airfield, prior to additional new primary provision opening beyond the current forecast period.

6.2. Secondary

6.2.1. Pupil forecasts

Planning Area	Academic Year	Year 7 Places Available - PAN	Year 7 Forecast Pupil Numbers	Available Capacity (4% target)	Total Places Available	Total Forecast Number On Roll	Available Capacity (4% target)
Alcester and Studley	2019/20	570	602	-6%	2850	2862	0%
	2020/21	570	571	0%	2850	2932	-3%

	2025/26	497	574	-16%	2485	2849	-15%

6.2.2. Commentary and Sufficiency Proposals

- Pupil forecasts for Alcester and Studley planning area currently suggests pressure across the area however this is likely to be centred on Alcester town rather than Studley. Pressure from in year applications will need to be monitored closely owing to the selective nature of Grammar schools in this area and the popularity of schools in this area with out of county children at Year 7 entry.

- Kineton High School has increased the PAN from September 2018 onwards offering an additional 150 places across the school over the next 5 years. It is likely there will be a shortfall as a result of housing development across the area towards the end of the forecast period. This may initially be presented as increasing in year pressure as the academic year progresses and ultimately this will likely require expansion of Kineton High School beyond the forecast period to meet this demand.
- The Shipston planning area is currently forecast to be over capacity moving forward as a result of housing development within the planning area. This situation will be monitored closely and again may initially be presented as increasing in year pressure as the academic year progresses.
- Bulge classes may be required to accommodate potential additional children ahead of a permanent expansion of Shipston High School, before a new secondary school is opened (beyond the current forecast period) as part of proposed large scale Garden Village development at Long Marston. Work will be undertaken with the school to identify the additional accommodation needed for future expansion following the recent completion of two new classroom blocks on the site.
- Stratford planning area is expected to have pressure on places moving forward, this is due in part to the popularity of the Grammar schools with children from outside of the Stratford area.
- Stratford High School has admitted an additional 25 pupils for Year 7 entry in September 2019 as a temporary bulge class to accommodate demand in the Stratford area. A review of accommodation and site capacity at Stratford High School will be undertaken to inform any future requirements for expansion of the school to accommodate demand from proposed additional housing in the Stratford area.

7. Special Educational Needs (SEN) Provision

7.1. Special School Growth

7.1.1. Taking the anticipated population growth and factoring in the growing demand for specialist provision the following need for special school places is projected:

Education planning area	Year	Special School Cohort By Home Address	Total Increase by 2022	% Increase
North Warwickshire	2017 BASELINE	135		
	2022/23	143	8	5.93%
Nuneaton & Bedworth	2017 BASELINE	426		
	2022/23	499	73	17.03%
East Warwickshire	2017 BASELINE	223		
	2022/23	292	69	30.80%
Central Warwickshire	2017 BASELINE	288		
	2022/23	366	78	27.07%
South Warwickshire	2017 BASELINE	199		
	2022/23	230	31	15.81%
Warwickshire total	2017 BASELINE	1271		
	2022/23	1530	259	20.35%

7.2. Sufficiency Proposals

7.2.1. In order to address these significant pressures the priority areas for development, as identified by the projections above, are in Nuneaton and Bedworth, East, Central and South Warwickshire

7.2.2. Pressure on places will initially be addressed by expanding existing special schools wherever practicable, as follows:

Education Area Served	Approved Plans Under Implementation	Proposals Under Development / Requiring Approval
Nuneaton & Bedworth	<p>Oak Wood Primary opened a new primary classroom for 8 learners in September 2017.</p> <p>Further funding has been approved to create an additional classroom for 8-10 pupils. Project in progress with completion for Autumn 2019</p> <p>Oak Wood Secondary has funding approved to develop a new secondary classroom for 8-10 learners, to be ready for Autumn 2019</p>	

Education Area Served	Approved Plans Under Implementation	Proposals Under Development / Requiring Approval
Central Warwickshire		<p>Round Oak Secondary has funding approved for a 28 place / 3 classroom expansion.</p> <p>Plans have also been developed to increase capacity at Ridgeway Primary through reconfiguration of existing accommodation</p> <p>Both plans awaiting implementation</p>
East Warwickshire	Permanent accommodation for Quest Academy due to be completed for September 2019 allowing the school to move from their current base in Nuneaton & Bedworth	Discussions underway with Brooke School (as part of Unity Academy Trust) to seek satellite or partnership sites to support reconfiguration of some existing provision to free up space on main school site.
County-Wide Provision	Exhall Grange School and Science College: Range of works approved creating 24 additional places for learners in the main school and 44 places in the sixth form provision. Works completed spring 2019. Approval received to relocate KS4 Learning Pod onto Exhall Grange site to improve access to progression routes.	
North Warwickshire	Woodlands School: A suitable space on site has been identified for the development of specialist nurture provision to provide short term intervention for learners experiencing mental health difficulties impacting on their ability to access learning in the school environment.	Following the relocation of the Learning Pod (Coleshill) onto the Exhall Grange site, there is a proposal to transfer the Packington Lane site to Woodlands School (part of Unity Academy Trust) to facilitate reconfiguration of existing provision and some expansion of capacity.
South Warwickshire	Implementation of resourced provision alongside mainstream settings at a number of locations in South Warwickshire currently being progressed	A focus on further development of resourced provision in this area of the county

7.2.3. Continued development of resourced provision across the county whereby learners with communication and interaction needs but who are cognitively able to access the curriculum benefit from being located on site alongside a mainstream school environment. Admissions to these settings are controlled by the county panel for specialist admissions.

8. Appendix 1 – Primary Planning Areas

Primary Planning Area	Schools
Arley	Arley Primary School
	Bournebrook C of E Primary School
Atherstone	Outwoods Primary School
	Racemeadow Primary Academy
	St Benedict's Catholic Primary School
Baddesley Grendon	Woodside C of E Primary School
Coleshill	Coleshill C of E Primary School
	Curdworth Primary School
	High Meadow Infant School
	St Edward's Catholic Primary School
	Shustoke C of E Primary School
	Water Orton Primary School
North Polesworth	Austrey C of E Primary School
	Newton Regis C of E Primary School
Polesworth	Birchwood Primary School
	Dordon Primary School
	The Nethersole C of E Academy
	Warton Nethersole's C of E Primary School
Kingsbury	Hurley Primary School
	Kingsbury Primary School
	Wood End Primary School
Bedworth North East	All Saints Bedworth C of E Primary School
	The Canons C of E Primary School
	Race Leys Infant School
	Race Leys Junior School
	St Francis' Catholic Primary School
	St Michael's C of E Primary School
Bedworth South West	Exhall Cedars Infant School
	Goodyers End Primary School
	Keresley Newland Primary Academy
	Newdigate Primary School
	St Giles Junior School
	Wheelwright Lane Primary School
Wolvey and Bulkington	Arden Forest Infant School
	St James' C of E Junior School
	Wolvey C of E Primary School
Nuneaton North West	Camp Hill Primary School
	Galley Common Infant School
	Michael Drayton Junior School
	Nathaniel Newton Infant School
	Nursery Hill Primary School

	St Anne's Catholic Primary School
Nuneaton West	Park Lane Primary School
	Abbey C of E Infant School
	Chilvers Coton Infant School
	Croft Junior School
	Glendale Infant School
	Middlemarch Junior School
	Queen's C of E Academy
	St Paul's C of E Primary School
	Stockingford Primary School
Nuneaton North East	All Saint's C of E Primary School
	Chetwynd Junior School
	Lower Farm Academy
	Milby Primary School
	Our Lady and St Joseph Catholic Academy
	St Joseph's Catholic Junior School
	St Nicolas C of E Academy
	Weddington Primary School
	Wembrook Primary School
	Whitestone Infant School
Rugby North of the Railway	Boughton Leigh Infant School
	Boughton Leigh Junior School
	Brownsover Community Infant School
	Riverside Academy
	Rugby Free Primary School
Rugby North Central	Abbot's Farm Infant School
	Abbot's Farm Junior School
	Eastlands Primary School
	English Martyrs Catholic Primary School
	Hillmorton Primary School
	Northlands Primary School
	Paddox Primary School
	St Andrew's Benn C of E Primary School
	St Gabriel's C of E Academy
Clifton-upon-Dunsmore C of E Primary School	
Rugby South Central	Oakfield Primary School
	Rokeby Primary School
	St Marie's Catholic Primary School
	St Matthew's Bloxam C of E Primary School
	St Oswald's C of E Primary School
Rugby West	Bawnmore Infant School
	Bilton Infant School
	Bilton C of E Junior School
	Cawston Grange Primary School
	Henry Hinde Infant School

	Henry Hinde Junior School
Dunchurch	Dunchurch Infant School
	Dunchurch Boughton C of E Junior School
	Leamington Hastings C of E Infant School
Rugby Rural	Binley Woods Primary School
	Knightlow C of E Primary School
	Our Lady's Catholic Primary School

9. Appendix 2 – Secondary Planning Areas

Secondary Planning Area	Schools
Atherstone	The Queen Elizabeth Academy
Coleshill	The Coleshill School
Kingsbury	Kingsbury School
Polesworth	The Polesworth School
Bedworth	Ash Green School
	Nicholas Chamberlaine School
Hartshill	Hartshill School
Nuneaton	Etone College
	Higham Lane School
	St Thomas More Catholic School
	The George Eliot School
	The Nuneaton Academy
Rugby South of the Railway	Ashlawn School
	Bilton School
	Harris C of E Academy
	Lawrence Sheriff School
	Rugby High School
	Rugby Free Secondary School
Rugby North of the Railway	The Avon Valley School
Warwick and Leamington	Aylesford School
	Campion School
	Myton School
	North Leamington School
	Trinity Catholic School
Kenilworth	Kenilworth School
Southam	Southam College
Alcester and Studley	Alcester Academy
	Alcester Grammar School
	St Benedict's Catholic High School
	Studley High School
Henley In Arden	Henley In Arden School
Kineton	Kineton High School
Shipston	Shipston High School
Stratford	King Edward VI School
	Stratford Girls' Grammar School
	Stratford Upon Avon School

10. Appendix 3 – Pupil yield figures

The following pupil yield figures are used when calculating the expected additional pupils generated by new housing development.

Area	Current pupil yield per year group, per 100 new homes
North Warwickshire Borough	2.75
Nuneaton and Bedworth Borough	2.97
Rugby Borough	4.83
Stratford on Avon District	3.56
Warwick District	4.54
