### Summary

Data are extracted each month as a snapshot in time from the GP Payments system maintained by NHS Digital. This release is an accurate snapshot as at 1 July 2017. Since April 2014, geographical references have been taken from 2011 census information. Quarterly editions of the release (January, April, July and October) include Lower Layer Super Output Area populations (LSOAs) and a topic of interest, for this release the topic is GP practices which have opened or closed in the last year across England.

GP Practice; Sustainability and Transformation Partnership (STP); Clinical Commissioning Group (CCG); NHS England Region and NHS England Commissioning Region level data are released in single year of age (SYOA) and 5-year age bands, both of which finish at 95+, split by gender.
