

How many children and families can you help this winter?

A recommendation from you is one of the best ways to encourage flu vaccination.

- Any child aged 6 months or over who has a chronic health condition is eligible for a flu vaccination
- A nasal vaccination is available for all children aged 2 and 3 years old on August 31 2017 through their GP (i.e. those born between 1 Sep 2013 and 31 Aug 2015) and children in Reception and Years 1 to 4 through school
- Here is a reminder of the groups who are eligible
- See how many more we need to vaccinate to reach our targets!
- Although a mild illness in most, it spreads easily among children and does kill
- Having a flu vaccination is one of the best ways of protecting those who are most vulnerable this winter, and supporting our health and care services - see the impact!
- Heard that the vaccine is not effective? FALSE. For the facts, please see our mythbuster factsheet
