

# Stay safe outside

We should all continue to stay home as much as possible. When you are outside please follow Government guidance to keep you safe.

## Keep 2 metres apart from other people

You can enjoy spending more time outside, including exercise, with members of your household. You can also meet with one person outside your household but you need to remain 2 metres apart

## Keep your hands and face as clean as possible

Wash your hands using soap and water for 20 seconds and avoid touching your face

## Avoid being face-to-face with people if they are outside your household

You can lower the risk of infection if you stay side-to-side rather than facing someone

## Avoid crowds

Avoid an area if it looks very busy and go somewhere else with fewer people

## If you have to travel

You should walk or cycle wherever possible. If you have to use public transport you should try to avoid peak times
