

Seasonal Flu Vaccination Children's Programme

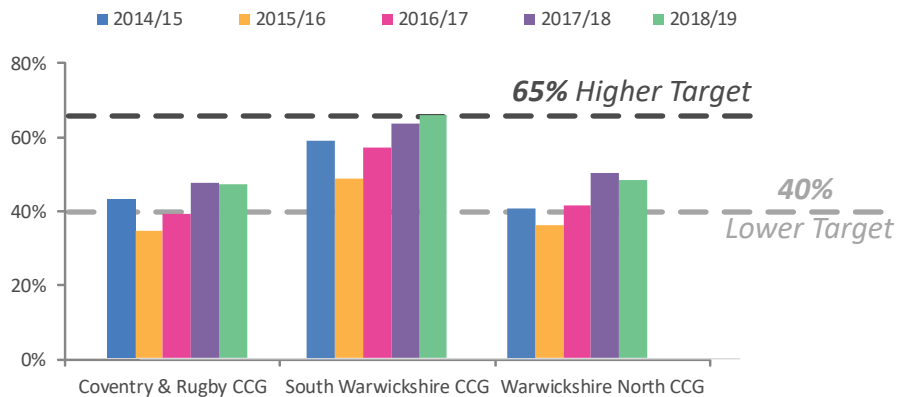

2 year olds:

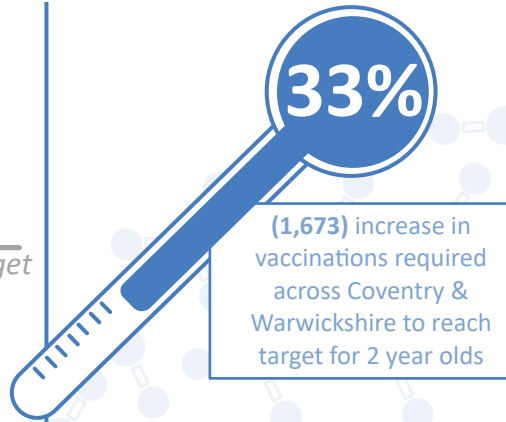

All 3 CCGs have seen a fall in uptake rates between 2017/18 and 2018/19

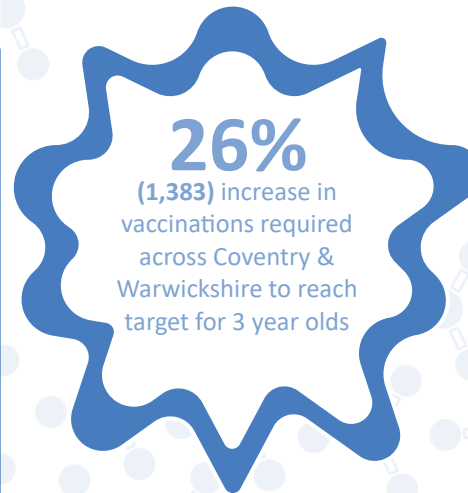

3 year olds:

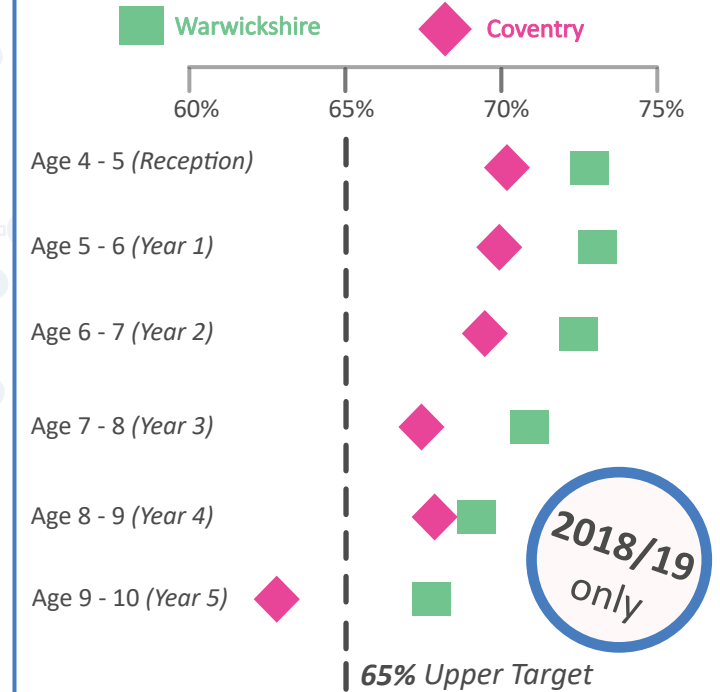

South Warwickshire CCG is very close to target in 2018/19 and the only CCG to see an improvement from 2017/18

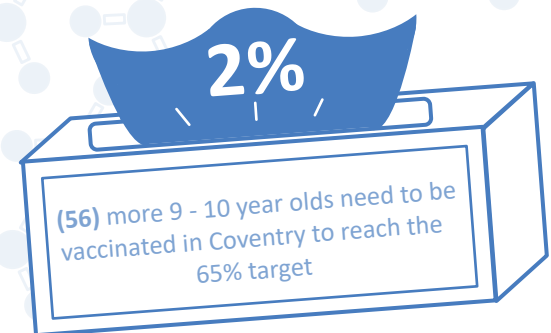

Don't hesitate, let's vaccinate

4 - 10 year olds:

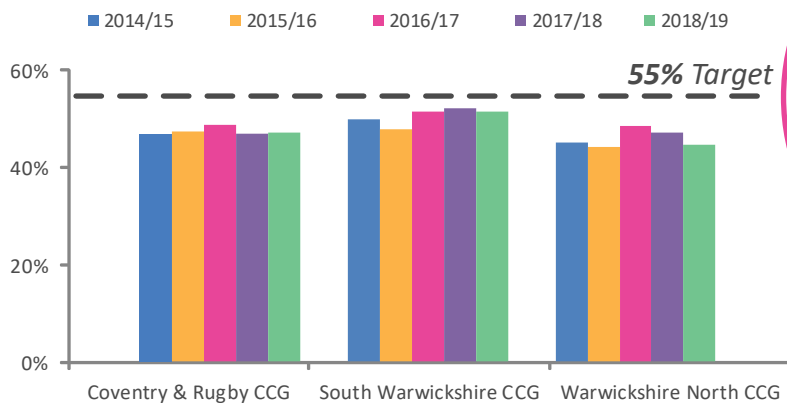

Other than age 9-10 (in Coventry), all primary school uptakes in Coventry and Warwickshire are above the upper national target

Seasonal Flu Vaccination Adult Risk Groups

Pregnant Women:

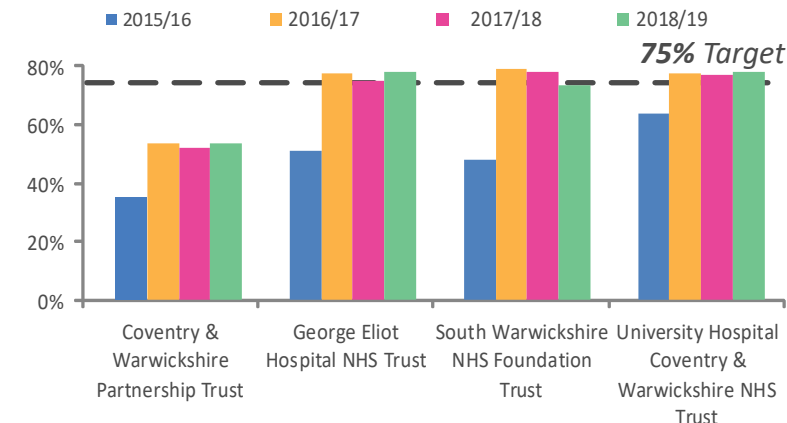

All 3 CCGs are yet to meet the national target (55%) for vaccinations in pregnant women

13%
(702) increase in vaccinations required across Coventry & Warwickshire to reach target for pregnant women

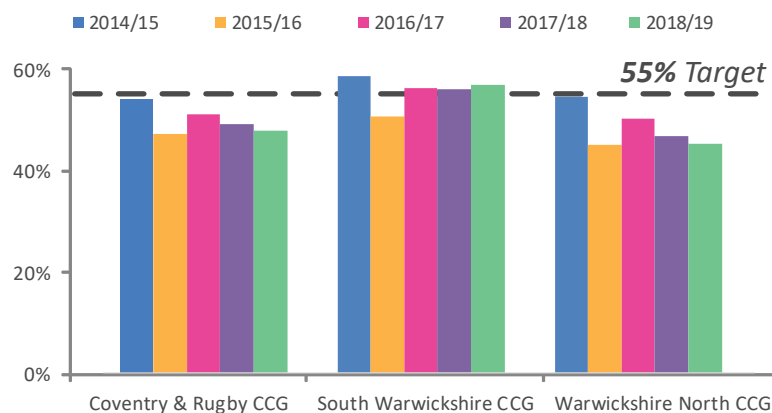

Healthcare Workers:

Two out of four Trusts in Coventry and Warwickshire exceed the target (75%) for healthcare worker vaccinations

Up to 65 years (Clinical at risk):

South Warwickshire CCG has met or exceeded the target for those aged up to 65 years who are clinically at risk for the past 3 years

10%
(5,696) increase in vaccinations required across Coventry & Warwickshire to reach target for up to 65 year olds

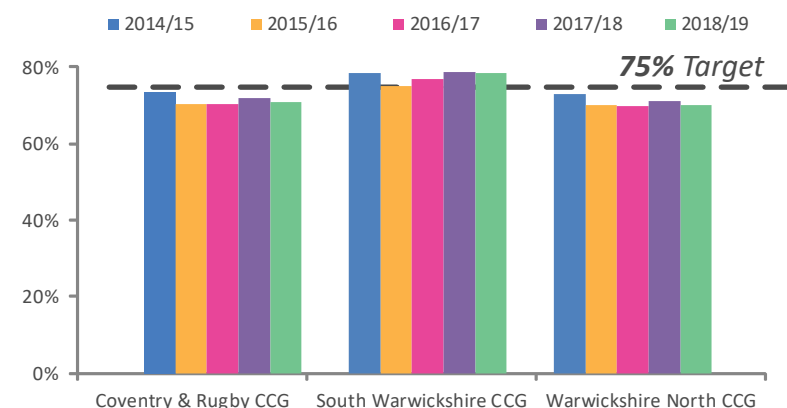

3%
3,708 increase in vaccinations required across Coventry & Warwickshire required to reach target for 65+ year olds

Don't wait, vaccinate

65+ years:

South Warwickshire CCG has been close to or over the 75% target for the last 5 years
