

Your Early Help Pathway - Review

The purpose of this review is to work together to identify what has gone well, discuss what we are still concerned about, revisit original actions and decide on any new actions.

We will look at progress made against the actions on the plan and identify any additional support that may be available to you.

We will also review the support you have already accessed, and discuss if you are waiting to hear about any referrals or are on any waiting lists for support.

Here is what to expect during this review:

Speak with your Lead Professional and complete your Early Help Pathway review together

Speak with your family about the things that are going well, as well as the challenges you are facing

Do work with professionals to make progress on the actions you identify together

Do use online resources and universal services if you need further information and guidance via www.warwickshire.gov.uk/childrenandfamilies

Review your action plan - how well are things going for you and your family?

Review next steps with your lead professional and decide what type of support you need moving forward

Contents of this document:

> **Progress Summary** - an overview of the support that was put in place, and an opportunity to outline the difference you feel it has made

> **Action Plan Review** - a record of actions that will help you and your family after formal support from your lead professional has closed
