

# SEASONAL FLU VACCINATION Children's Programme

## 2 year olds:

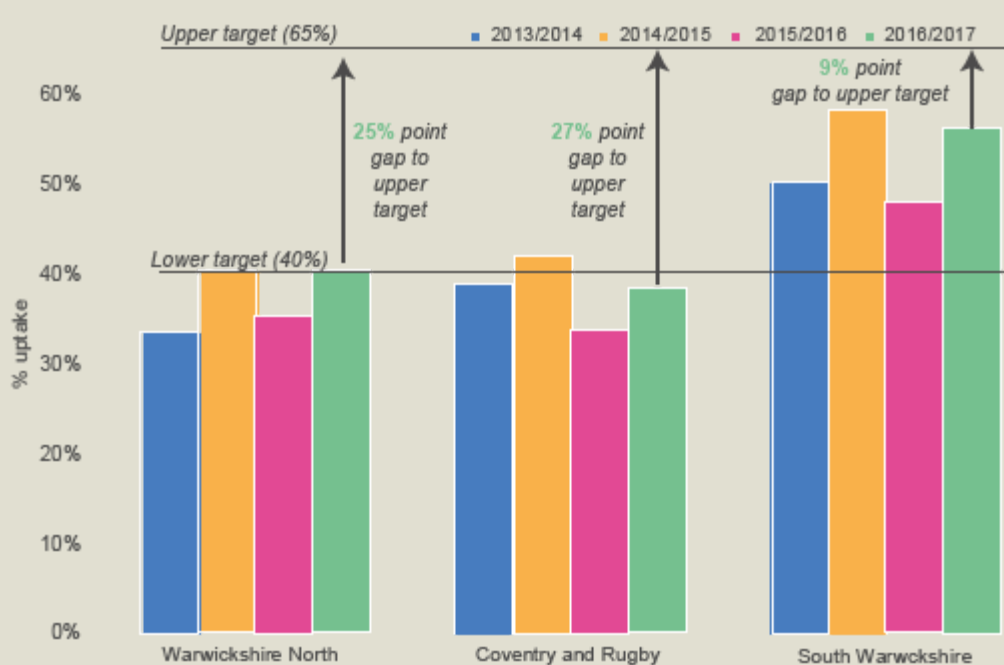

**6,700** more 2 year olds need to be vaccinated across Coventry & Warwickshire

All 3 CCGs have seen an improvement between 2015/16 and 2016/17

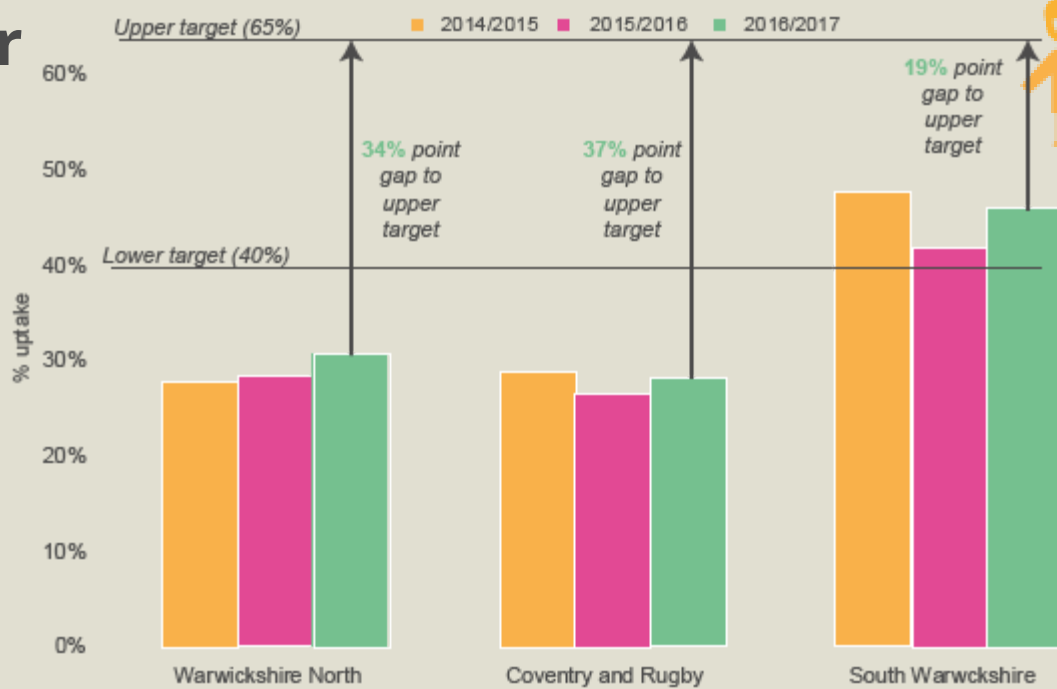

## 3 year olds:

**6,600** more 3 year olds need to be vaccinated across Coventry & Warwickshire

All 3 CCGs have seen an improvement between 2015/16 and 2016/17

## 4 year olds:

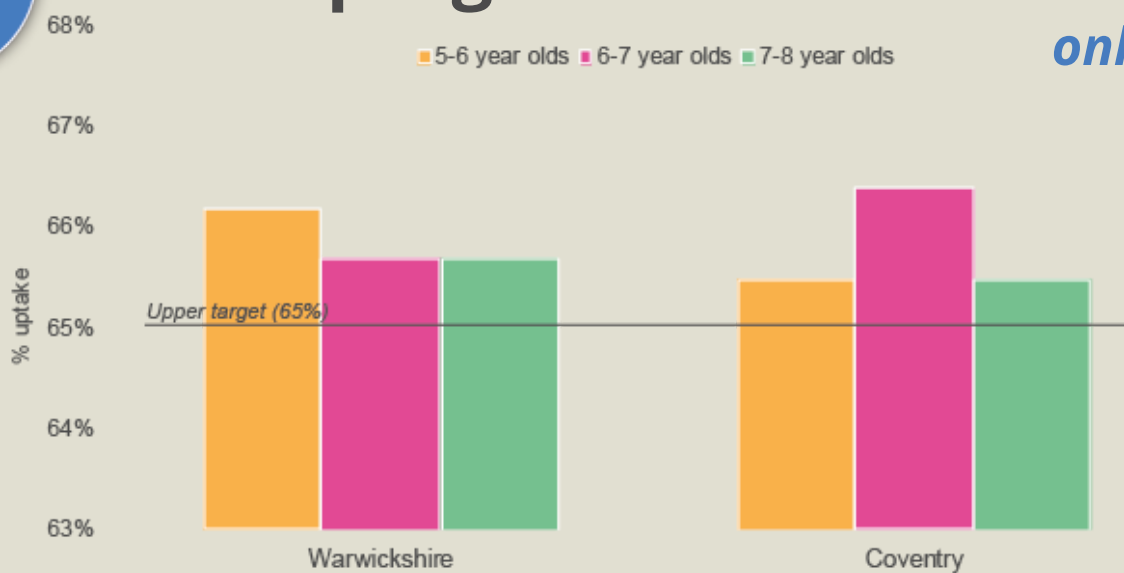

**7,900** more 4 year olds need to be vaccinated across Coventry & Warwickshire

The 'gap' in uptake seems to widen between 3 and 4 year olds when considering the upper target

## School programme:

**2016/17 only**

**11,500** more 5, 6 and 7 year olds need to be vaccinated across Coventry & Warwickshire

For all age groups in the schools programme, the upper target is being exceeded

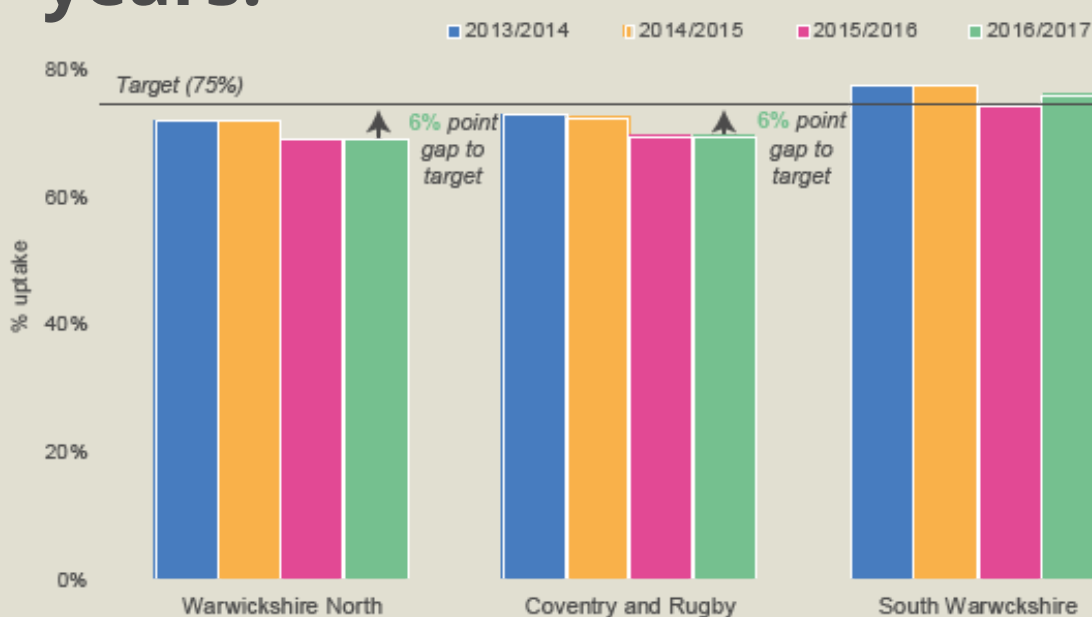

# SEASONAL FLU VACCINATION

## Adult Risk Group

### 65+ years:

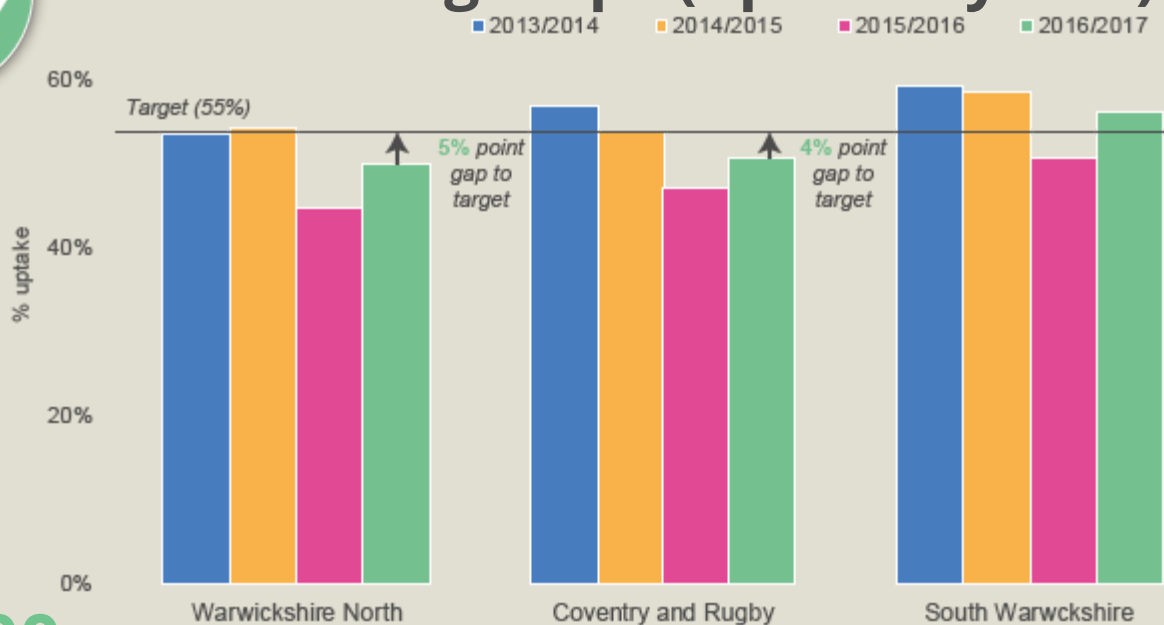

**48,500**

more 65+ year olds need to be vaccinated across Coventry & Warwickshire

South Warwickshire CCG has been close to or over the 75% target for the last 4 years

### Clinical risk groups (up to 65 years):

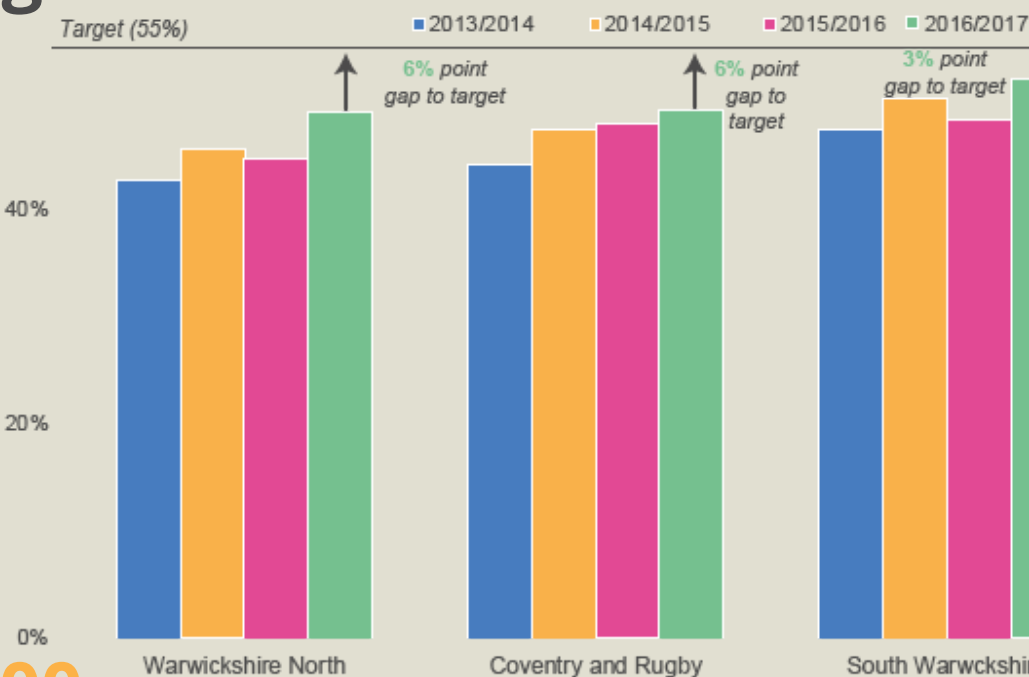

**48,200**

more clinical risk groups (up to 65 years) need to be vaccinated across Coventry & Warwickshire

In 2015/16 and 2016/17, vaccination uptake for clinical risk groups has fallen compared with previous years

### Pregnant women:

**5,500**

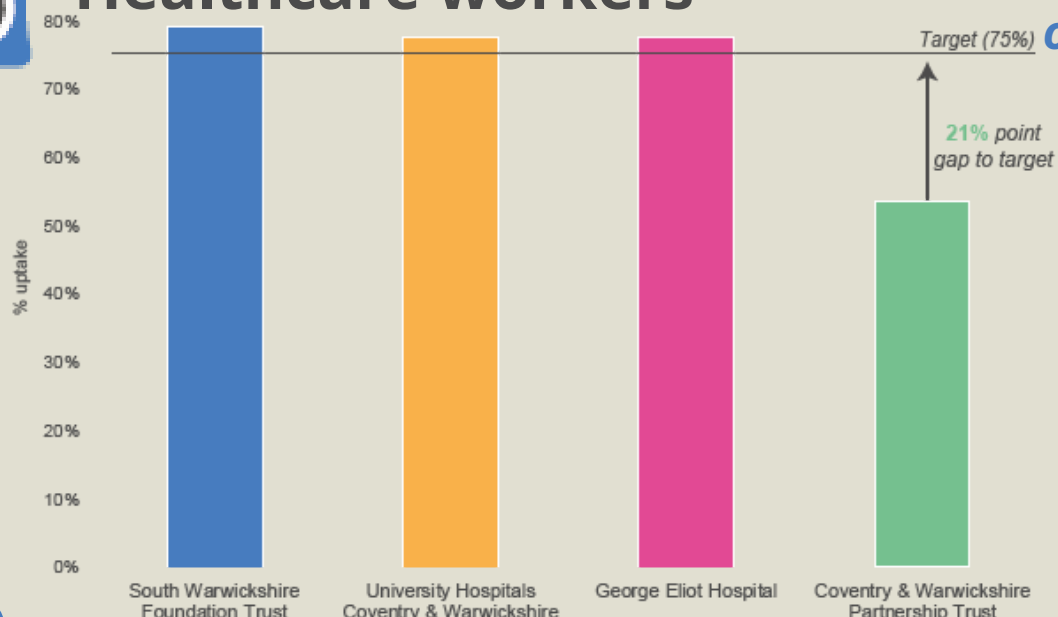

more pregnant women to be vaccinated across Coventry & Warwickshire

All three CCGs have yet to meet the national target for vaccinations in pregnant women

### Healthcare workers

2016/17

**4,100**

more healthcare workers need to be vaccinated across Coventry & Warwickshire

The majority of Trusts in Coventry and Warwickshire exceeded the target for healthcare worker vaccinations
