## Notes for completion of this form LGPEN 106

**Additional Pension Contributions (APCs)** – are means by which a scheme member may increase his/her pension benefits by the purchase of a determined amount of annual pension. The purchase may be made by lump sum or by regular contributions through the deduction from the payroll over a set period of time.

**Medical certification** – it is the member's responsibility to obtain certification from a registered medical practitioner which may be the member's own doctor.

**Reasons for there being a requirement for a medical certification** – an APC contract is deemed to be 'paid for' if the scheme member has to retire through health reasons, or dies in service. The medical certification is used to assess a basic level of risk to the Pension Fund and to give the Administering Authority of the Pension Fund justification for refusal of an APC if the member is not in reasonably good health.

**Reasonably good health** – the LGPS regulations do not define reasonably, therefore we would expect that the dictionary definition of 'reasonably' is used.

The Oxford dictionary defines it as 'By sensible standards of judgement; justifiably'.

**Fees** – any fees incurred in the completion of this form must be borne by the scheme member. No fees may be charged or recharged to the Pension Fund.

**Where to send the completed medical form** – the fully completed medical form should be attached to the member's completed application form to pay SC/APCs. Copies of both forms should then be sent by the member to Warwickshire Pension Fund.
